INTRODUCTORY NOTES.

In compiling this collection of designs in mosaic, raised scroll and other ornamental work, the publisher has spared neither expense nor effort to produce a standard text book of original art gems which should supply to all ambitious workers an incentive to become perfect in their calling by emulating the designs herein published.

RAISED SCROLLS.

The raised scrolls in this book are from the master hand of Mr. Fred. Weber, the greatest scroll painter the World has ever produced. A glance at his designs in this volume bears evidence to this. The scrolls herein displayed are of the highest artistic standard and were originated expressly for this book which contains a variety of designs for interior decoration suitable for street cars, wagons, omni-busses, railroad coaches, safes, etc.

MOSAIC OR FLAT ORNAMENTS.

No name is better known in connection with this branch of ornamental work than that of Mr. S.H. Redmond the artist, whose designs are shown in this volume Mr. Redmond's work shows genius and originality and in this respect he is second to NONE.

SIGN LETTERING.

Herein will be found a full line of all the principal styles of sign letters, designed by the leading artist sign writers of the Eastern and Western cities, giving a full and comprehensive selection of up to date modern letters.

Among publications this work stands absolutely alone. It occupies a field entirely its own. Every one of these designs was originated expressly for this publication at a great cost and have never before been published. It is a painters true guide to ornamental and sign painting and contains an inexhaustable supply for those who wish to advance in their particular field.

The publisher wishes to express his thanks to MESSRS. JULIUS BIEN & Co., Lithographers, whose work in connection with this volume displays much skill and taste.
